

**CONNECTED****LAERTES**

Lower Adriatic Euro-Region for
Transport Evolution and
Sustainability

Laertes - Lower Adriatic Euro-Region for Transport Evolution and Sustainability - is a project funded by the European Union under the Interreg IPA South Adriatic Programme 2021-2027.

**Duration**

start date - end date

07-25 / 12-27

Main Goal

LAERTES will design strategies and mobility solutions aimed to improve regional connectivity, enhancing the shared sense of identity and cooperation across borders.

The Lower Adriatic region requires stronger transport connectivity to facilitate the movement of people, goods and services. This includes developing more efficient road, rail, maritime, and air transport systems to link various regional centers and peripheral areas.

The project will allow to frame these needs within an overall scenario that highlights the various critical issues and proposes concrete solutions in terms of transport connectivity.

**Total budget**

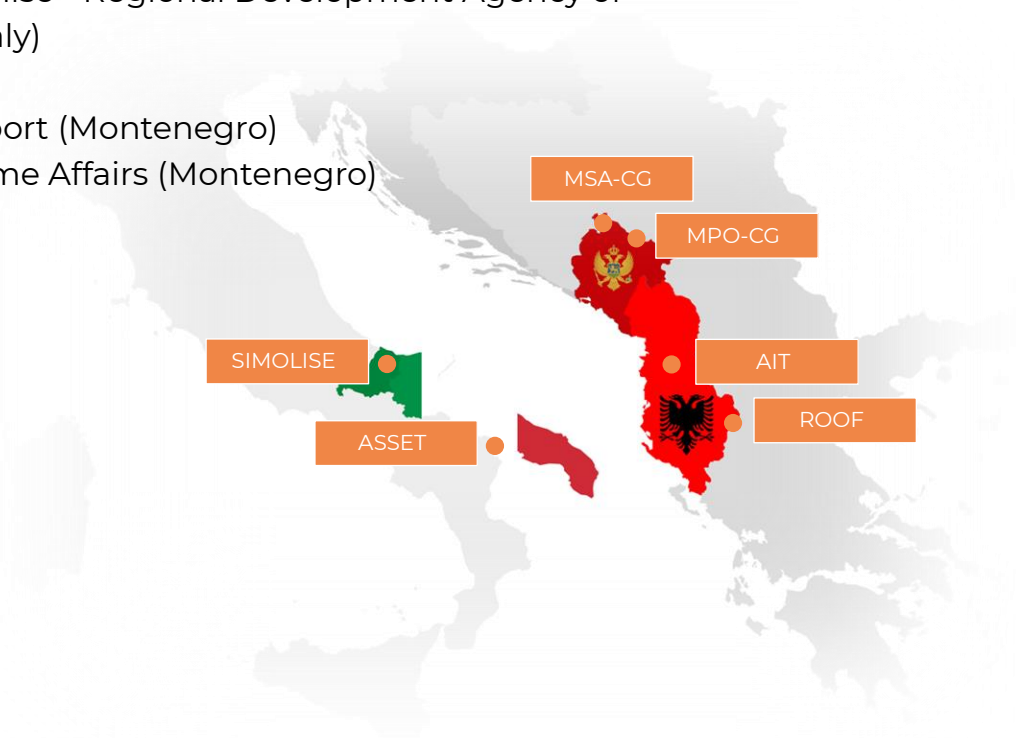

1.042.327,56 €

**EU funding**

188.545,10 €

Project main activities -Expected output/results

LAERTES will design a multifaceted and intermodal cross-border mobility strategy for the Lower Adriatic region, relying on the constitution of an innovative and strategic “legal” entity and the implementation of 3 Pilot Actions enhancing regional connectivity. LAERTES will propose solutions for the integration of the region’s transport networks through a multimodal approach, improving the efficiency of cross-border movement. Their implementation is expected to mark a decisive stride forwards the promotion of an innovative integrated transport system in the Lower Adriatic region and support the growth of trade, tourism, and investment in all participating countries.
